Among those companies generated hazardous waste, 100% hired professional third-party company to evaluate, detect and properly manage the disposal and impact.

Portfolio Highlights

Li Auto

Li Auto received the highest "AAA" rating globally from MSCI ESG in 2023. This rating confirmed Li Auto's excellent performance in corporate governance, product quality & safety, carbon footprint and clean technology development prospects.

TCab

TCab is dedicated to mitigating negative climate impact and attaining zero-carbon green objectives. Contrasted with traditional helicopters, TCab's eVTOLs operate purely on electricity, thus are pollution-free, emit lower noise levels, and exhibit greater environmental sustainability.
